

WINDY HILL FARM

NURSERY • ORCHARD • GARDEN SHOP

FALL IS THE IDEAL TIME FOR PLANTING PEONIES AND IRIS

Itob-type Peonies – These crosses between tree peonies and herbaceous peonies are some of the most outstanding hybrids developed. They combine the best qualities of both parents. Several selections available.

Herbaceous Peony hybrids – We have a wide selection of field-grown divisions in single, double, semi-double and Japanese-type forms. Extra-large divisions available.

Japanese and Lutea Tree Peony hybrids – They thrive in sun or partial shade, growing up to 4 feet high and 5 feet across, covered with dinner-plate-size blooms in May and June. Unrivaled as a hardy flowering shrub for the Berkshires. A large selection of hard-to-find cultivars.

Iris – Both large- and small-flowered selections, including:

- *Iris germanica hybrids* – bearded iris
- *Iris siberica hybrids* – rugged Siberian iris
- *Iris ensata hybrids* – choice Japanese iris, outstanding in wet soils
- A wide selection of species Iris including *I. pallida* ‘*Variegata*’
